

SMD Rework station

Product Name:	SMD Rework station
Brand:	HEATEX
Model:	706D
Category:	Soldering & DeSoldering Stations

System Includes	Features	Specifications
<ul style="list-style-type: none"> • Power base with built in air pump & PID based power control channel with digital display • Hot air gun for non contact soldering and de-soldering of SMD's with single hole nozzle • Side attachment for Hot air gun stand 	<ul style="list-style-type: none"> • PID Control for accurate and precise temperature • Hot air gun for safe and-contact SMT component removal or replacement. • Self contained diaphragm Air pump • Bright display for clear visibility • Auto tune systems control • Closed loop temperature control • Soft On/Off Power switch • Modular and compact design • Integrating the functions of hot air and soldering iron, more convenient for use and covering less work space. • Self contained Air Pump , with air flow quantity can be adjusted softly. • Easy to handle. Different Sized Bits & Nozzles are available. • Monitor Bit & Nozzle temperature intelligently with perfect temperature offset to ensure soldering Quality. 	<ul style="list-style-type: none"> • Input Voltage : 230VAC,50Hz • Hot air gun : 110VAC,150W • Air pump : 230VAC,3-24 Lt/min • Temp Range : 150- 450°C
