

HUMAN BODY VOLTAGE CHECKER

Product Name:	HUMAN BODY VOLTAGE CHECKER
Brand:	ZE
Model:	Z2055
Category:	ESD TEST Equipments

System Includes	Features	Specifications
	<p>This instrument is designed to measure the Static Voltages carried on a human body. It is a good auditing tool to verify whether Personnel entering an ESD safe area are carrying any hazardous charges on themselves. It can also serve to verify whether all the ESD protection measures which have been taken to make a particular area ESD safe are effective. By such measures we mean conductive flooring, antistatic table mats, wrist straps, staticshielding bags, ionizing equipment, conductive containers and bins etc.</p> <p>It is very simple to use and only requires the personnel under test to touch the Button on the instrument and directly read the charge level in volts on the meter.</p> <p>The Z2055A version gives a hazard warning if Voltage measured exceeds 100V</p>	<p>Dimensions in mm : 125 x 75 x 29 Weight : 125 gms Test Actuation : On/Off push button switch Indicating range : 0 to + 2000V Warning(in Z2055A) : Audio alarm if voltage exceeds 100V Display : 3.5 digit LCD display with polarity indication Accuracy : +15% Test Surface : Nickel plated button Power Supply : 9 V battery Low battery : Warning at < 7.5 V on Display Calibration : Recommended once every 12 months Traceability : To national standards Accessories : Carrying case & Grounding Cord Construction : ABS plastic cabinet Warranty : One year</p>
