

DIGITAL SMD REWORK STATION

Product Name:	DIGITAL SMD REWORK STATION
Brand:	HEATEX
Model:	850
Category:	Soldering & DeSoldering Stations

System Includes	Features	Specifications
<p>Power base with built in air pump & PID based power control channel with digital display Hot air gun for non contact soldering and de-soldering of SMD's with single hole nozzle Side attachment for Hot air gun stand</p>	<ul style="list-style-type: none"> • PID Control for accurate and precise temperature • Hot air gun for safe and-contact SMT component removal or replacement. • Self contained diaphragm Air pump • Comfortable portable handheld and the Digital LED display. • Microcomputer control, warming-up quickly. • Adjust the air flow and temperature control. • When the temperature is less than 70°C, can stop rotation automatically. • Intelligent system that could alarm, Fault detection automatically. • Safe to solder QFP, PLCC, BGA and other temperature-sensitive components 	<ul style="list-style-type: none"> • Working voltage: AC: 220 V plus or minus 10% frequency 50 Hz • Output power: 350 W plus or minus 10% • Temperature range: 100 c-450 c; • Air flow: 120 L/min (maximum) • Temperature stability: ± 2 c (static)
